

Coaches,

We know it goes without saying the importance of the role you play for our kids and our organization. We thank you for answering the call to volunteer to coach soccer to our youth. We thank you for stepping forward when many stepped back. We thank you for putting aside your job and family, and investing your personal time to coach our kids so that they can experience that team spirit and the thrill of playing the game.

We thank you for creating the laughter and joy we hear on a Saturday morning when 350 kids converge onto our painted grass fields just to kick a ball around so they can hear their parents cheer them on and make them feel proud of them of what they have learned from you...coach.

Without you that would could not happen, and Spencer would have another 30 acres of corn and a community without the game.
